ABOUT ME

Since my childhood, Im mainly focused on learning about Computer Science, Electronics & Building IOT Devices as my passion and hobby, Then I chose Information Technology as a Subject for both GCE. O/l and A/l Exams to achive my target which is get a Software Engineering Degree.

Currently I'm learning as Undergraduate in University of Vocational Technology Rathmalana. Im following Bachelor of Technology in Software Technology Honours Degree & my plan is improve my knowledge to Masters in Blockchain Developer in Future.

While Im learning I was seeking many entrapeunership paths and then I got oppotunity to work with Duber LTD, Well leading tech company in United Kingdom as a Remote Software Engineer (MERN Stack).
